"When you buy a stock, you become part-owner of a living organism. 'Your' company is a team of people with certain leadership, values, energy and personality. You need to understand what makes it tick, rather than focus on numbers alone."

Kerr Neilson
Founder & Director, Platinum Asset Management

[FAQs](#)

1. The investment returns depicted in this graph are cumulative on A\$20,000 invested in C Class of the Platinum International Fund over the period from the fund's inception on 30 April 1995 to 31 May 2019, relative to the MSCI All Country World Net Index (A\$). The net MSCI index is used, except the gross MSCI index was used prior to 31 December 1998 as the net MSCI index did not exist then. The MSCI index returns assume the reinvestment of dividends from constituent companies. Index returns do not reflect fees and expenses, and are provided as a reference only. Platinum does not invest by reference to the weightings of any index or benchmark. The fund's underlying assets are chosen through Platinum's bottom-up investment process. Source: Platinum Investment Management Limited for fund returns; FactSet for MSCI index returns. All data where MSCI is referenced is the property of MSCI Inc. No use or distribution of this data is permitted without the written consent of MSCI Inc. The data is provided "as is" without any warranties by MSCI Inc. MSCI Inc assumes no liability for or in connection with this data. See Terms and Conditions for full MSCI disclaimer.
2. Fund returns are calculated using the net asset value per unit (which does not include the buy/sell spread) of C Class (standard fee option) of the relevant fund and represent the combined income and capital returns of C Class over the specified period. Returns are net of accrued fees and costs, are pre-tax, and assume the reinvestment of distributions. The investment returns shown are historical and no warranty can be given for future performance. Historical performance is not a reliable indicator of future performance.
