Building **Strong** Businesses With **Lasting Value**

Our **Story**

Founded in 2001, Palm Beach Capital (PBC) is a private equity investment firm that partners with management teams in middle market buyouts, recapitalizations and growth equity investments. Since inception, PBC has made investments in 44 companies.

PBC Principals and Senior Management have made significant personal commitments to our Funds, thereby ensuring that their interests remain very closely aligned with our Limited Partners. This commitment has worked well.

[Read More](#)

Investment Criteria

PBC is willing to explore a spectrum of investment options that - with our operating expertise, professional network and capital - possess the opportunity for greater reward through both revenue and multiple expansion. As such, we have **no particular industry or geographic focus**; but instead, we are an opportunistic, growth investor with a value perspective on selecting our portfolio partners.

PBC has a thorough investment methodology, extensive due diligence focus and an integrated team approach that brings significant operational leverage to our portfolio companies.

Dedicated to Our Partners

Palm Beach Capital's disciplined approach to operational improvement through the provision of our intellectual capital, financial resources and proprietary network of alliances ensure we build businesses with lasting value.

Our management team **partners** with you to grow, not buy out, your company

Owners can continue to run the business themselves with **Palm Beach Capital**

We invest in both majority **and** minority equity positions
