

# Investing for Your Future. Aligned With Your Values.

To help faith-based organizations meet their operating, investment, and mission goals, we created Ascension Investment Management. Our purpose is to be good stewards of our clients' capital and invest according to their values.

We do this by delivering high-quality comprehensive investment solutions that enable our clients to better carry out their mission by allowing them to focus on the big picture.

"We do not accept that you have to sacrifice returns in order to invest with socially responsible investment guidelines"

— David Erickson, CIO
