PEACE OF MIND IS THE  
ULTIMATE ASSET CLASS

Every investor is unique but, in the end, most of us want the same thing: we want to know we've done everything right. And that takes trust. And that's something, no two ways about it, you have to earn.

WELCOME TO  
THE FIRM.

From our lawyers to our planners, the Ferris Capital team was built to meet the very unique needs of one very unique investor, David Ferris. In time, however, we've found other individuals and families who share similar wants and needs. Who are equally demanding. One at a time, we started working with them in the very same way we work with David Ferris: like a member of the family.

We work with a demanding group of investors whose needs and expectations regularly exceed the bounds of “traditional” financial relationships. To meet those needs, we’ve assembled a unique, multidisciplinary team driven by a relentless, 24/7 commitment to each and every client. This team, like our founder, was built to run through brick walls for our clients.
