

Welcome to LGT Vestra US

Wealth management, with a global, personalised and transparent service, carefully designed around your best interests

A fresh approach to wealth management

Our fresh approach focuses on building lasting partnerships with US connected clients, developing trust through transparency in all actions and maintaining our entrepreneurial spirit.

Wealth Management for US connected clients

Investment decisions are driven by hopes, fears and dreams as much as by facts and analysis. We realise that wealth has social and human dimensions and understanding the full picture, looking at both the rational and the emotional, is what we do at LGT Vestra US.

Investment approach

We never lose sight of the fact it is your money that we manage. From accumulation and preservation through to the succession of your assets, we help you to meet your financial goals whilst working within your risk parameters. In so doing, we focus on long-term thinking, our leading investment expertise as well as our active management approach.

Princely values

Our owners, the Princely Family of Liechtenstein, belong to one of Europe's oldest noble houses. As a successful entrepreneurial family, it has a distinctly long-term perspective that is reflected pictorially in the Princely Collections.
