

ACADEMY
INVESTMENT MANAGEMENT

A unique

DISCIPLINED APPROACH

ABOUT US (/ABOUT)

(/about)

We believe that there are consistent patterns in how investors react to information.

At Academy, we use cutting edge technologies and advanced statistical techniques to analyze information flows and strive to predict how investors will react to information. Because our strategy is based on consistent behavioral patterns, we believe that we have created strategies that can transcend the globe, that will be robust over time, and that will perform in different market environments.
