Welcome to Stringer Asset Management

Our investment philosophy is founded on proven diversification methodologies but also addresses and acknowledges many behavioral finance issues. Here are a few things we think differentiate us from many other investment managers.

1 Innovative Flexibility

We have the innovative flexibility to take advantage of near-term opportunities as well as to potentially identify those rare market environments when the best thing an investor can do is get out of the way.

2 Experienced Industry Leaders

The leaders of Stringer Asset Management have decades of experience in the investment industry, working with a multitude of investor types and working within every market condition imaginable.

3 Custom Methods | Proven Results

Our core investment beliefs are steeped in research. Having worked closely with individual investors and their advisors for years, we bridge economic theory with real-world practicality.

4 We Walk The Walk

The investment professionals at Stringer Asset Management invest alongside our clients. We take pride in eating our own cooking.

The SAM Story

Stringer Asset Management is a group of investment professionals that have worked together for over a decade managing money through both calm and turbulent markets. Our investment philosophy is founded on proven investment management methodologies and also addresses many of the behavioral tendencies that can cause investors to fall short of achieving the opportunities presented by the financial markets.
