

## Who We Are

[icon\_box title="Investors" icon="icon-plus"]Parallax was founded in January 1999 to make control equity investments in lower middle market software and related technology companies[/icon\_box]  
[icon\_box title="Experienced Team" icon="icon-briefcase"]

The Parallax team is comprised of many former owner operators of technology companies with experience at all levels of business

[/icon\_box]

[icon\_box title="Technology Focus" icon="icon-cloud"]

Parallax invests in companies with revenues between \$5 and \$100 million where there are creative opportunities to significantly enhance a company's value

[/icon\_box]

[icon\_box title="Helping Companies Grow" icon="icon-dashboard"]

Unique from other financial buyers, Parallax will take an active management role in its portfolio companies – assuming a number of interim positions within a company as required

[/icon\_box]

[icon\_box title="Beyond The Numbers" icon="icon-bar-chart"]

Numbers are important, but we place a higher value on the technology, the team, and the market when evaluating potential acquisitions

[/icon\_box]

[icon\_box title="Global" icon="icon-globe"]

With portfolio companies around the world we are geographically agnostic and welcome opportunities worldwide

**IN GREEK, THE WORD PARALLAX MEANS "TO CHANGE"**

This defines our ability to look at a company from various perspectives and to see each potential business acquisition from all angles. This approach, which combines our wealth of experience and proven management capabilities, gives Parallax the capacity to understand a company's current position and the vision to transform the organization to greater success in a changing business environment
