

We don't invest in  
the pail and shovel.  
We invest in the  
sandbox.

Activant is a long-term oriented global private investment firm that partners with high-growth companies transforming the industrial complex.

Our Philosophy

01.

# Learn from the best.

We've spent our careers building strong face-to-face relationships with industry leaders, decision makers, and academic researchers.

02.

Anticipate change

When we sense that an industry is outgrowing its current infrastructure, we develop a thesis around opportunities for growth.
