OUR GUIDING PRINCIPLES

Innovate

Innovative strategies and capabilities are at the core of every differentiated business. ACP invests in innovative companies and management teams and provides the resources, relationships, and experience to help them thrive.

Integrate

Strategic acquisitions, new talent, and fresh resources, when integrated properly, accelerate growth and strengthen a company's value proposition. ACP's principals have deep experience finding and integrating new ideas, approaches, and capabilities into entrepreneurial businesses to help companies grow much more rapidly than they could on their own.

Grow

Creating sustainable, profitable growth is our ultimate goal. It's not easy, but we have helped dozens of companies accelerate their growth and achieve performance levels beyond management's expectations. We are a growth-oriented firm that ensures all constituents to our investments benefit from the collective growth achieved by ACP and its management partners.
