

Welcome to ShoreVest Partners

ShoreVest Partners is an institutional private investment firm specializing in Chinese distressed debt and structured credit. With a 15-year track record of consistent returns, our investment process is scalable and repeatable across market cycles. Our core team members have worked together for upwards of 10+ years and have a combined 100+ years of experience in Chinese distressed debt and structured credit. We leverage these core competencies to source and extract returns in the rapidly increasing opportunity set, particularly in the non-performing loan (NPL) space. We are equally well-positioned to provide innovative solutions in structured credit as China's debt capital markets continue to develop across the risk curve.

The ShoreVest team has managed US\$1.6 billion of distressed debt-focused capital in China, on behalf of institutional investors including sovereign wealth funds, pension funds, foundations, endowments and family offices from around the globe.
