

PARTNERING WITH SPECIALIZED OILFIELD BUSINESSES

Black Bay Energy Capital ("Black Bay") is an energy private equity firm focused on the North American oilfield service sector. Black Bay invests up to \$30 million of equity capital in businesses managed by talented entrepreneurs that provide a differentiated product or service to the industry. Black Bay's investment strategy and success stem from the more than 60 years its investment professionals have been working day-to-day with great teams and building high-growth oilfield service companies. Black Bay spends every day collaborating with successful, driven oilfield management teams and has the experience to know what it takes to be successful.
