

Our Story

Holistic Planning with Your Health and Happiness in Mind

Since 2007, Legacy Wealth Partners has served as advocates for people looking to connect their wealth with their vision for the future. A decade of thought-provoking conversations and genuine relationships has brought us to the conclusion that a full and rewarding life is not measured by dollars and cents, but rather is the sum of enriching experiences, thrilling adventures, and quality time spent with family and friends. Inspired to set in motion more of these worthwhile moments, we've adopted a compelling mission focused on both achieving goals and reducing financial tension. In all that we do, we endeavor to foster healthier, happier clients.
