

# Fundamentally Different

*We understand that great companies  
are built over time*

## At a Glance

Orchard Holdings Group is a private investment firm that invests non-institutional, private, family capital in businesses with the potential to create substantial long-term value. Our principal objective is to partner with exceptional management teams to build great businesses.

Our approach is to identify situations that are well-served by an investment partner who is aligned with the goal of maximizing whole-dollar value, without the short term considerations of institutional private equity funds. We provide an important alternative to companies and executives that want the flexibility to build great companies over time and are in search of committed partners.
