**"Seriously? Another investment app?"
-Everyone**

Enough with generic ETF portfolios. Get your money invested by actual world-class investors.

We only care about one thing:
Investing your money with the best fund managers on the planet.

Access to world-class fund managers

We match you with the best

Our technology matches your money with a curated mix of world-class fund managers. [Learn more about these specialized fund managers.](#)

Experts manage your portfolio

This means an alternative fixed-income specialist could be managing 12% of your portfolio, a well-respected growth stock manager looking after 8%, and other expert managers looking after the rest.

Get started in minutes

You can create an account, fund it, and start investing in 3 minutes with as little as \$5.

Active management

Managing both risk and return

Don't just passively ride the up and down waves of the market. The actively managed funds on Round aim to navigate the choppy waters in order to achieve the best possible return while also managing risk.

Alternative assets and strategies

The fund managers often have significant resources and employ experienced teams with deep expertise in unique investment areas. Say goodbye to passive stock and bond portfolios.

Tactical portfolio allocations

You might still eat that 2-week old tuna sandwich sitting in your fridge, but we don't take the same risks with your money. That's why we have an internal second layer of defense where your portfolio can be re-allocated away from excess risk.

Round's fees

We're putting our money where our mouth is. We have so much conviction in the fund managers on the Round platform, that if your return is negative, we won't charge you a fee*. What other financial firm is willing to do that?
