Third Seven Advisors (TSA) is an independent, private wealth management firm. A Registered Investment Adviser (RIA), TSA adheres to a strict fiduciary responsibility to our clients while providing unbiased, fee-based, objective advice. We are uniquely positioned to offer our advisors and clients a suite of traditional and alternative investment products, which we believe is essential in the current public markets environment.

But that's not what makes us different.

Our focus is simple:

- We are entrepreneurs serving entrepreneurs
- We can enhance an advisor's business wherever they are in their lifecycle
- We believe in putting "the investments" back in investing

What makes us different, is what makes you better.
