

ADG has created cutting-edge proprietary market volatility models and has an exceptional overview of correlation trading.

Welcome to ADG Corporate

ADG Corporate Ltd is the group holdings company comprised of 4 FCA regulated firms and a Malta Financial Services Authority regulated firm which provide proprietary trading and investment management services. We provide an entrepreneurial environment for motivated and skilled traders to express their investment views and styles within a robust operational platform.

Using highly sophisticated proprietary analytical and risk management tools, ADG continues to build a strong record of profitability in trading with its own capital. ADG's money management expertise was built to manage partner capital but is also available to external investors.

We have offices in London, Vienna and Dubai.

Important Notice

ADG Corporate Limited is aware of a French firm “**ADG Placement**” who is purporting to be a firm affiliated with the ADG Corporate Limited and the ADG Group, and is seeking for investments into a crypto-currency investment fund.

This entity is **not** affiliated to ADG in any way, and we therefore consider their actions to be fraudulent.

If you have been approached by ADG Placement, you should contact the Financial Conduct Authority at 0800 111 6768.

Proprietary Trading

Using quantitative analytical tools we seek to take advantage of dislocations in derivative markets across and within markets. Amongst the techniques used, our traders utilise relative value strategies, statistical arbitrage and dispersion trading.

Market Making

ADG Market Making LLP has built a reputation as a leading market maker in fixed income and equity index options denominated in the principal European currencies.

Investment Management

ADG Capital Management LLP provides quantitative and systematic investment management services and invites sophisticated professional investors to co-invest alongside partners' capital.

Venture Capital

ADG Corporate seeks investment opportunities in startup or young businesses which exhibit potential to bring innovative technology or business practice to established business areas.

Client advice and brokerage

ADG Financial Products LLP executes trades for clients and assists them with managing their portfolios of European assets.

Provides investment management services to sophisticated investors

Supplies asset managers with pricing, intelligence and trading ideas

Houses our proprietary trading activities and supplies the broking community with prices for listed options

ADG Securities LLP

Proprietary trading in ETFs across European markets

ADG Europe Ltd

Market making in listed derivatives on European markets
