

Leading private markets investment management

Partners Group is a global private markets investment manager, serving over 850 institutional investors. We have USD 83 billion in assets under management and more than 1,200 professionals across 20 offices worldwide. We realize potential in private markets by financing and developing great companies, desirable real estate and essential infrastructure. We create value in our investments through active and long-term responsible ownership.

Institutional investors

We build long-term relationships with investors worldwide and invest globally on their behalf.
