

Investing for Growth, Elevating Results

Mountaingate Capital is a private equity investment partnership located in Denver at the gateway to the Rocky Mountains.

Building Industry Leaders

Our sole mission is to partner with entrepreneurial management teams to advance lower middle market companies into industry leaders through a buy-and-build value creation strategy, with a rigorous adherence to customer-centric organic and acquisition growth.

OUR STRATEGY

Drawing from our Unique Perspectives

Our past investing experiences inform the ways that we support our management teams due to our focus on just four industry sectors and our deep domain expertise.

EXPERIENCE

Setting the Partnership Foundation

We are dedicated to supporting our management partners with the resources they need to thrive. We do not take a day-to-day operations role but our servant leadership approach, Colorado work ethic and experience result in us playing a very active support role at the ground level.
