Why MarketsFlow?

Most financial advisors and asset managers passively manage portfolios. This means that your investment portfolio is usually made up of pre-defined asset allocations.

[SIGN IN \(HTTPS://APPLICATION.MARKETSCYCLE.COM\)](https://application.marketscycle.com)

Is this a problem? Yes, it is. Markets are inherently dynamic in nature. This means that at any given time period, a sector of the market maybe trending upwards or trending downwards. Similarly, not all stocks are correlated or exhibit the same momentum behaviour.

(<https://www.marketsflow.com/>)

(<https://www.marketsflow.com/portfolio-performance/portfolios.php>). You will notice that we have consistently outperformed S & P 500 and Eurkea 50 Hedge Index. Not only is the portfolio performance impressive, but the volatility and risk management is exemplary too.

The performance record for MarketsFlow portfolios is based on a back-test for Growth Portfolio covering the period from September 2014 to May 2016. The High growth portfolio covers back-test from September 2017 to October 2018. For any back-tested portfolio performance the simulated past performance is based on the actual past performance of one or more investments or financial indices which are the same as, or underlie, the investment concerned. Any financial performance figures refer to the past and that past performance is not a reliable indicator of or forms a guarantee for future results.

Our clear USP is our game changing platform which uses supervised Machine Learning, AI, high computational data synthesis and complex algorithms to help us optimally construct portfolios, make allocation and rebalancing decisions.

It is this relentless focus on scientific investment management, which has led MarketsFlow to outperform the markets in different conditions, including highly volatile periods.

Marketsflow do not provide bespoke advice taking into account individuals personal and financial circumstances. If you are unclear as to the suitability of any of our funds for your particular financial and personal circumstances, then you should seek independent financial advice before investing.

[ABOUT US \(HTTPS://WWW.MARKETSFLOW.COM/ABOUT2/\)](https://www.marketsflow.com/about2/) +

After you sign up to MarketsFlow, you will receive an login (<https://application.marketscycle.com/login>) to our platform and to Interactive Brokers (our Custodian and Broker)

[COMMUNITY \(HTTPS://COMMUNITY.MARKETSFLOW.COM\)](https://www.marketsflow.com/community)

MarketsFlow has won Best Broker, Dealer Research ([our-awards.php](https://www.marketsflow.com/our-awards.php)) at the prestigious Fund Technology and WSL 2018 Awards in New York for the second year in row

MarketsFlow is authorised and regulated by the Financial Conduct Authority (FCA No. 792373).
