WHAT MAKES US DIFFERENT

Individual investments and markets fluctuate over time. As professionals, our job is to enable you to make informed financial decisions using the full complement of resources at our disposal. This process provides a framework for making decisions collaboratively and monitoring the outcome of those decisions over time. Each step involves interaction between our team, the client and outside professionals if needed.

EMPATHY

We take the time to actively listen and understand you and confirm what we hear.

FIDUCIARY

We put you before us. We negotiate for you, not against you.

EXPERIENCE

With over 150 years of combined experience this isn't our fourth rodeo. Even with this experience we aren't a bunch of old codgers wedded to yesterday's solutions.

FEE-ONLY

We receive one clearly aligned fee and accept no commissions or other third party fees that could sway our recommendations.

WHITE PAPER

EXECUTION

Knowing what to do, how to do it and when to do it are three separate skills. Intelligence defines these skills and experience hones them. He who makes the fewest mistakes wins.
