

## A Registered Investment Advisor

Since 1974 Garrison Bradford & Associates has been helping individuals and institutions create, preserve and pass on wealth.

We are an SEC-registered investment advisor located in New York City, owned and managed by principals with a combined hundred-plus years of experience in all types of investment cycles.

Managing money is our only business. Our fee structure is transparent and designed to align our incentives with our clients' goals. Each client's portfolio is custom-designed and managed, optimized by a focus on the dual objectives of generating income and long-term asset growth above the market averages, while simultaneously limiting risk and volatility. We pride ourselves on numerous long personal relationships with our clients.
