Final Closing – PG Impact Investments raises USD 210 million for its inaugural social impact fund

February 27, 2019

Impact Investing is one of the strategic areas of focus for ISP so we are happy to have been able to contribute to the successful closing of Partners Group Impact Fund I. We believe that the key to increasing the assets invested with positive social and environmental objectives is to balance the impact and financial returns for investors. In the new year we hope to grow our presence and positive impact. We are pleased to have donated a significant amount of our compensation back into the PG Impact foundation. <http://pg-impact.com/2019/02/11/pg-impact-investments-raises-usd-210-million-for->
