**Active investment management you can trust.**

## Investment Over Speculation

We invest in companies with sustainable earnings, strong management and market position.

## Outwardly Client Focused

Strong relationships along with client goals/interest come first.

## Independent Fiduciary Views

We offer our clients clear vision in a volatile world.

# We Specialize in Separately Managed Accounts

## Transparency

We believe you should know what's in your portfolio – and more importantly, why.

## Customization

We believe the more flexibility and control you have to customize, the better.

## Diversification

We believe you should have a diversified portfolio as it fits your situation.

## What is on the table with China?

By Mitchell Capital | May 14th, 2019 | Categories: Blog

By the numbers, China has more to lose from a trade war than the U.S. does. After months of progress, discussions and positive signals, suddenly the trade negotiations with China seem as if they have [...]

## 5 things to know about Social Security

By Mitchell Capital | April 22nd, 2019 | Categories: Market | Tags: benefits, plan, social security

The Social Security Act was signed by FDR in August 1935 to provide economic security for America's working citizens. It is a political creation which explains the multiple changes both large and small in the [...]
