

Welcome to Coastal Partners, Ltd.

Coastal Partners, Ltd. is a Bahamian corporation founded in 2004 to provide sophisticated offshore and tax exempt investors access to superior alternative investment products. The company's primary objective is to create and promote offshore hedge funds and other alternative investment vehicles that meet the needs of a broad range of institutional investors. The senior executives of the company have over 30 years combined experience in designing, managing and marketing alternative investments and hedge funds. With two offices in the United States and an office in Nassau, The Bahamas, the company is structured to serve the international investment community. Clients include some of the largest investment consultants, fund of funds, banks and pension funds in the world.

Coastal Partners, Ltd. is focused on seeking out alternative investment managers who have developed successful strategies and have proven records for managing assets within changing market conditions. In general, these managers have been limited in their exposure to the international investment community and primary research sources. After the investment manager passes a thorough due diligence process, Coastal Partners Ltd. works to structure an offshore investment fund dedicated to the manager and their investment strategy.
