## Get Started with Marketocracy Capital Management

### Separately Managed Account

1  
**Learn more about our separately managed account (SMA) program.**

Our MCM separately managed account program enables clients to access and incorporate our tailored investment strategies, Explore and ART (Absolute Return Team), into your portfolio management. Select the strategy that fits best with your investment goals and philosophy; whether you place equal importance on performance and downside risk management or you are comfortable with a more aggressive strategy, **find it here.**

### Invest with the Warren Buffetts Next Door

2  
**Invest alongside the Warren Buffetts Next Door.**

You can also customize a strategy for your MCM separately managed account. Base your investment decisions on your choice of the selected, premier model portfolios of the Warren Buffetts Next Door and our other talented Marketocracy Masters, all of whom have shown excellent judgment in all kinds of market conditions—all sectors and styles—with five-to-ten year track records. We monitor them for performance and adherence to our stated investment objectives and policies. Utilize their guidance and **start the investment process today.**

3

**Open an account now or have a representative contact you to discuss your goals and objectives.**

There are two things we can say about the future; the market will change, and no one performs well all the time. However, we expect analysts with verifiable track records of strong performance to apply the same good judgment to future opportunities as in the past. The Marketocracy Masters were selected because they all have long-term track records showing that they can deliver returns and take protective action at the right times. We monitor performance and ask each to answer for results.
