Optima STAR Strategy

The objective of **OPTIMA'S AWARD WINNING STAR STRATEGY** is to provide investors with “THE BEST OF BOTH WORLDS” by combining access to legendary hedge fund manager access with no lock up, daily liquidity, and no incentive fees.

The Strategy seeks to invest in each of the five highest conviction equity positions from the public filings of a carefully selected group of ten best-in-class hedge fund managers who we believe are among the most accomplished in the business. Eight of the ten managers are either closed to new investors or have prohibitively long lock ups.

The Optima STAR Strategy was launched in April 2016, and received an award for outstanding performance in 2017 by HFM Week.
