# Money Managers or Money Masters.

Over 88 million Americans have more than \$12 trillion invested in over 8,000 mutual funds. Many of these funds deliver annual performance results that are well below the results achieved by industry benchmarks like the S&P 500 Index. This means millions of people, maybe even you, continue to pay for poor performance. Become a Money Master.

# About Us

When you open a Money Masters Account you become a client of the Retirement Corporation of America (/index.php/themasters/aboutus).

RCA was one of the first SEC Registered Investment Advisory firms to make their services available online, starting in 2005.
