

Global & Systematic

Growing your assets

We are global.

We serve a global client base from our headquarters in Anchorage, Alaska. We gather and analyze data on approximately 50,000 global securities in approximately 100 countries.

We are systematic.

Our proprietary and systematic process is repeatable and harnesses the power of computers, mathematics, and an experienced human team. We focus on the strategies where we have the knowledge and discipline to execute them successfully.

We are experienced.

We have more than a 25 year track record in systematic investing. We are one of the oldest systematic managers in the industry and have managed successfully through many market cycles.

**In memory of our founder,
Robert B. Gillam
1946 - 2018**
