Overview

Mangham Associates is a customized Outsourced Chief Investment Officer (OCIO) that partners with endowments, foundations, other non-profits and select family clients for their particular investment management needs. We provide our clients with the expertise and structural advantages of a sophisticated investment office and strive to deliver investment performance that equals or surpasses the performance of the best-managed endowments.

Since 1991, our aim has been simple - to help our clients achieve their goals and missions through a focus on risk-adjusted investment results. For over 25 years, we have been adding value to our clients' investment portfolios through fundamental asset diversification and innovative manager selection. Our goal is to be the best investment management option for organizations that wish to enhance risk-adjusted performance. To do this, we take a long-term perspective, first understanding the specific risk tolerance of each client, developing a policy to fit their needs, and implementing the policy with some of the best investment managers across the globe. We work within a collegial environment that values the exchange of ideas, fundamentally grounded analysis, rigorous debate, testing of the consensus view and continual learning.

Our only focus is our clients. As a fiduciary, we put our clients' needs first. We are an independent Registered Investment Adviser with no structural conflicts, competing priorities or distractions from other businesses. We take immense pride in helping our clients achieve superior investment performance, enabling them to fund a wide range of educational, health, research and other activities that improve lives and enrich our communities.
