

Trusted. Knowledgeable. Nimble.

RockCreek is a leading global investment management firm that applies data-driven technology and innovation to sustainable investing. Its portfolio managers invest in emerging markets and alternatives, and its asset allocation teams invest in multi-asset class and outsourced CIO portfolios and customized solutions. RockCreek's client base is made up of sophisticated institutional investors, including endowments, foundations, pension plans, and sovereign funds. The firm is highly focused on the integration of environmental, social, and governance (ESG) factors and sustainable impact across portfolios to generate long-term returns. RockCreek has a culture of diversity, debate, and relentless drive to excel.

Inclusive Culture, Shared Values

Teamwork and partnership are at the core of RockCreek's culture. Our diversity of backgrounds and perspectives spawns fresh investment ideas. Yet we share fundamental values: respect for excellence, passion for investing, and commitment to clients.

[Who We Are \(https://www.therockcreekgroup.com/who-we-are/\)](https://www.therockcreekgroup.com/who-we-are/)

Multi-Asset & OCIO

Our multi-asset class and OCIO teams provide comprehensive, customized capabilities for our investors to achieve their financial objectives with exceptional client service.

Hedge Fund Solutions

RockCreek has been a leader in crafting customized hedge-fund solutions, often involving niche opportunities and emerging managers, designed to meet each client's unique needs. We also partner with our clients and advise their teams on their in-house investments.

Emerging Markets

From Asia to Latin America and Frontier Markets, RockCreek has a long history of successful investing in emerging markets. Our local teams provide on-the-ground knowledge on small-cap and mid-cap companies often overlooked as well as insight to technology and venture themes in those countries.

Impact Investing

At RockCreek, we believe in including sustainability in our investments to generate long-term economic value for our investors. As governments and investors focus on innovation that is better for communities and better for the environment, companies that align themselves with positive social and environmental impacts are more likely to thrive.
