Because Taxes & Wealth Building are Deeply Connected

Prudent investment and financial decisions must be made while considering taxes. And tax considerations must be taken into account when considering investment strategies. As both accomplished tax professionals and Certified Financial Planners, Eaglestone offers clients an integrated total financial solution that includes tax preparation and planning, wealth advisory, asset protection, and risk management.

Independent Guidance for the Financial Well-Being of High-Net Worth Individuals and Organizations

With the integrated services of EagleStone Tax and Wealth Advisors, you no longer need four different advisors. With taxes, investments, insurance, and estate planning all under one roof, the client no longer gets caught in the middle of four different offices.

As an independent wealth advisor and fiduciary, we offer unbiased guidance to clients without undue influence of any financial institution or product. We are financial stewards of client finances and our guidance is safely driven by what is in our clients' best interest.

A View of Health Care from Around the World

The United States health-care system has been impacted by the Affordable Care Act (ACA). But how does delivery of health care in the United States compare to that of other nations? And where does the United States rank with respect to the cost of health care per capita and as a percentage of gross domestic product?

Types of health-care systems

While each country has its own system of health care, most health-care systems generally fall within the parameters of one of

private providers who are paid by government-run insurance. Citizens pay into the government insurance program primarily through taxes. As the sole payer, the government directly influences the cost of medical care and the services covered.

The Out-of-Pocket Model. Used by the majority of countries, including China, this model provides little or no government health care. Instead, those who can afford care get it and those who cannot pay for care generally do not receive care.

The United States Model. The United States incorporates all of these systems to varying degrees. Medicare is akin to the NIH Model; servicemembers and veterans receive health
