### *Our Investment Philosophy*

**We believe in concentrated investing in high quality businesses and high quality people at disciplined prices.** Our primary concentration is on research and analysis. Before making an investment, our due diligence takes us deeply into the target company, its management and owners, its competitors and a wide variety of touch points in the industry. We use no outside research, preferring to keep our process uncluttered by the noise of Wall Street.

### *Our Story*

Our careers began in very different directions, but they converged as we discovered the teachings of legendary value investor Warren Buffett...

...That crisis would prove to be a defining moment for our firm.

### *Why Invest With Capco*

We believe our entire business model makes us different from the vast majority of money managers. We have built Capco around a “no compromises” attitude. We invest our clients’ money in the same way we invest our own.
