## Key Strengths

### A Strong Team

[Learn More](#)

An experienced and highly motivated group with a strong entrepreneurial spirit.

### Proven Process

[Learn More](#)

We first focus on superior companies and then apply a dual valuation approach.

### Unique Risk Control

[Learn More](#)

Our process manages risk through a combination of traditional and Corporate Life Cycle risk controls.

LaSalle Street Capital Management, LLC is an employee-owned investment advisory firm founded in 2008 to serve institutional and high net worth clients. Our professionals are dedicated to a philosophy, an investment process and a unique set of risk criteria which we believe generate an attractive reward/risk framework for our clients.

Strategic Growth, the firm's benchmark equity strategy, is premised on building a concentrated portfolio of leading companies diversified across Corporate Life Cycle stages. We view investments as business owners and make decisions accordingly. A portfolio constructed in this manner should have a high probability of participating in up market cycles while being well-positioned to endure down market cycles. This process is also utilized in our small cap strategy and custom accounts.

We welcome your interest and encourage you to learn more.
