## Renewable Energy Finance

Seminole Financial Services (“Seminole”) is regarded as a national leader in providing financing for renewable energy facilities up to small-scale utility in size (from \$2 million to \$40 million in loan size). We have directly funded over \$1.6 Billion of capital for renewable energy projects. Our turn-key financing solutions include providing **predevelopment loans, construction and permanent loans, and tax credit equity**. Seminole also provides long term debt under the USDA Rural Energy for America (REAP) Loan Guarantee Program.

Seminole provides exceptional customer service, quantitative analysis, and the transactional tools necessary to meet the challenges of financing renewable energy transactions. Our renewable energy clients benefit from both strategic and operational value created by our knowledgeable team.

## Our Performance

Chairman and CEO, Robert J. Banks, has been a leader in the real estate finance business for nearly 40 years. In 2008, the Seminole Companies was formed based on the successful foundation of his predecessor organization, the Midland Mortgage Corporation. Banks and Midland had a history of anticipating and responding to the ever-changing needs of a diverse group of clients and established trusted, long-term relationships. It is a reputation we continue to uphold today.
