

Spider Management Company, LLC

Investment with a Higher Purpose

At Spider Management, we are the only university-owned investment firm that offers its services exclusively to non-affiliated endowments and foundations. Our philosophy — do one thing, and do it well.

Our investment strategy is designed to align with other like-minded endowments and foundations. Our goal is to generate the right returns for the right clients — those oriented toward preservation of capital and long-term performance.

With approximately \$4.4 billion in assets under management, we bring a unique combination of expertise, scale, and flexibility to help our clients meet their investment objectives.

Seeking better returns. Pursuing lower volatility. But only for those in the nonprofit space.

If this sounds like you, we'd love to talk.
