

INVESTING.

IN A WHOLE NEW LIGHT.

INVESTING FOR YOUR PEACE OF MIND

Crosspoint Capital Management offers a transformative approach to investing, shifting away from old views that have put investors capital at risk, and providing a new bridge to growing capital.

PROGRESSIVE INVESTING

Throughout the history of the stock market, investors have been taught that the only way to participate in the growth of the market was to endure through periods of market declines

WE THINK DIFFERENTLY

Through our ability to actively measure risk, we are proactively positioning client portfolios to succeed through all market conditions. Our philosophy

TACTICAL LEADERS

Crosspoint has been holding true to our tactical approach since 2005. The losses produced in buy and hold strategies during the Dot Com Bubble and Financial Crisis of 2008 left investors

moves away from the outdated buy and hold strategy.

scrambling. Crosspoint's methodology is time tested & proven.

We believe investment performance depends as much on capital preservation as it does on asset growth. Crosspoint Capital Management has disciplined strategies for both.
