Why You Need TJT Capital Group To Manage Your Money

It is a fact that many investors consistently underperform. It does not have to be that way. Our unique investment approach is better, has a proven track record, and has benefited our clients for years.

Schedule A Free Portfolio Review

We are TJT Capital Group, a fee-only SEC-Registered Investment Advisor firm based in Stamford, CT. Our founding partners boast 80+ years of combined investing experience.

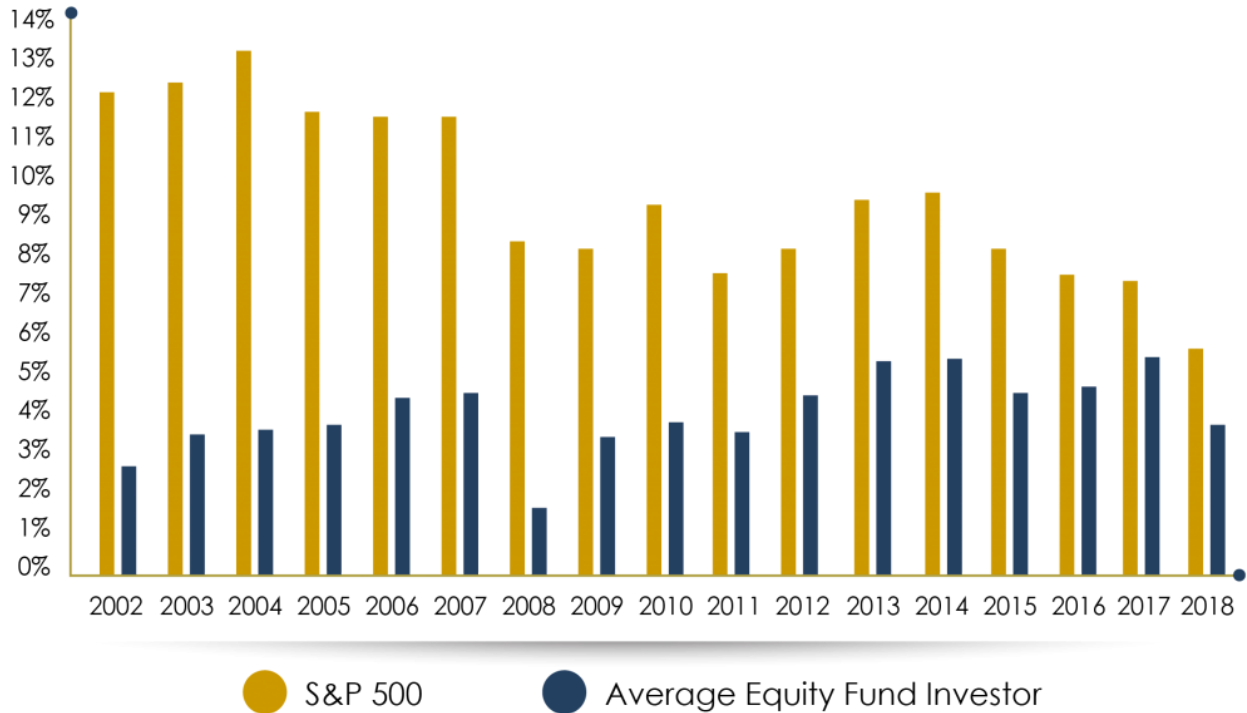

Our Reason For Success: TJT's **InVEST Risk Model®**

Investing is challenging. Many investors are unaware of the variables that truly move markets. As a result, they tend to do what others do, which is often influenced by predictions, narratives, opinions, and biases. This produces poor results as seen in the DALBAR chart.

At TJT, our **InVEST Risk Model®** focuses on 5 key indicators that really matter. We focus on the conditions that produce wealth and filter the “noise” coming from the street.

Long-Term Annualized Returns

S&P 500 **VS** Average Equity Fund Investor

"The original analyses began in 1984, so 2002 represents a 19 year analysis and 2003 covers a 20-year timeframe."

Learn more about our investment philosophy in the video below.

The Five Indicators You Need To Know

Interested in how the InVEST Risk Model works? At TJT Capital we value transparency. That's why we have created a whitepaper for our clients, titled **What Every Investor Needs To Know**. It articulates exactly what the five key indicators are — and why they are fundamental to making sound investment decisions.
