

ABOUT QFR

QFR Capital Management, L.P. is a research-based asset management firm founded in 2007. The principals of QFR are Jose Luis Daza, David Sekiguchi, and Kristen Boyle.

QFR provides investment advice that is focused on global macro opportunities with a relative value bias. It seeks long-term capital appreciation by primarily, but not exclusively, taking advantage of investment opportunities in non-G7 countries.

QFR utilizes a research strategy that integrates modern economics, advanced finance theory, market conditions, and judgments provided by the collective experience of QFR's investment team.
