

Sentinel Capital Solutions, Inc. is an SEC Registered Investment advisor that provides asset management solutions.

Sentinel Capital Solutions was established on the concept that providing downside risk protection and participating in the upside equity markets will result in a better bottom line for our clients. We use a proprietary quantitative formula that determines portfolio weight among asset classes to help us achieve our clients' goals. In short, we seek opportunities while attempting to avoid risks to work towards providing you with real returns and real results for your bottom line.

We'll do what we do best, so you can focus on what you do best.

What does wealth mean to you?

To some, it is owning their own home. To others, it means flying to a new country every month. Or do you just want to live comfortably in your own home in retirement without becoming a burden on your family?

We can help you identify the financial path that suits you and then work with you to stay on track

Our Mission

Sentinel seeks to provide comprehensive investment-related services and products to enhance our clients' financial wellbeing.

Our Processes

Discover the client's goals and objectives.

Educate clients about their choices.

Collaborate with clients to reach specific investment goals.

Engage clients on an ongoing basis.

Discover a new investment philosophy.

With the flexibility to reallocate assets as the market shifts, Sentinel Capital Solutions' risk averse, tactical allocation method works to proactively manage risk and improve portfolio returns.
