Superior,
Risk-Adjusted Returns

Since its founding in 1993, Waud Capital has raised approximately \$3.0 billion of capital commitments and has made more than 265 growth-oriented investments. We partner with exceptional management teams to build leading companies in our focus sectors of healthcare services and business and technology services. Waud Capital's disciplined and process oriented approach has resulted in consistently superior risk-adjusted returns for our investors.

Hear it from our CEOs

“In my career, I have enjoyed building successful businesses such as Applied Systems and Fair Isaac and look forward to replicating such success at CyberGrants. The partnership with Waud Capital has optimized our strategic vision and positioned the company for significant growth, and we have already made one important acquisition. We enjoy a working partnership with Waud Capital that goes beyond just capital – we have a true team relationship that is creating long-term value for all constituents.”

Mark Layden, CyberGrants
