

CIP Capital is a private equity firm focused on platform investments in growth-oriented, middle-market companies across the Business Information and Tech-Enabled Services sectors

Investment Philosophy

Sector Focused Investment Strategy

Developing long term investment themes within the Business Information and Tech-Enabled Services sectors

Platform-Oriented Buy And Build Approach

Strategically building scale through organic initiatives and acquisitions to expand into new service offerings, vertical end-markets and geographies

Active Partnership To Accelerate Growth

Leverage CIP Network of highly relevant executives to support strategic investment in organization, sales, marketing and technology to drive future growth opportunities

fund seeks to invest in proven, profitable businesses that provide their customer bases with critical information, data-driven insights, and value-added outsourced services. Founded in 2010, CIP Capital targets investments in sectors including tech-enabled business services, data-driven marketing services, human capital management and knowledge services.
