Grand Slam's office is located just across the George Washington Bridge, just minutes from Manhattan.

Grand Slam Asset Management, LLC, is a registered investment adviser specializing in small and micro-cap value investing. The portfolio management team has been together for more than a decade and prior to opening Grand Slam, built a small cap operating business from \$8MM to \$250MM in revenues. We utilize our knowledge of how to operate a business as well as traditional Wall Street experience to invest. We believe that this gives us a competitive advantage in performing due diligence and managing investments in this style.
