WHAT OUR CEOs SAY ABOUT US

With High Road's support, we achieved strong organic growth in North America while expanding into new

international markets. We made significant investments in product technology and facilities, and in our team, consumer education and training programs. These investments helped strengthen the Handi Quilter brand and deepen our relationships with quilters worldwide.

Mark Hyland
President and CEO, Handi Quilter

High Road's partnership enabled Crown to solidify our position as the go-to provider for high volume, difficult-to-coat products, as we extended our coating capabilities and

expanded our production. During High Road's ownership, we nearly doubled both our facilities and employees.

Frank Knoth
President and CEO, The Crown Group

High Road supported us as we expanded from 8 sleep diagnostic testing centers in and around Los Angeles to 23 centers throughout southern California. High Road really helped with the add-ons and with securing the financing we needed to grow.

Kermit Newman

President and CEO, Advanced Sleep Medicine...

FIRM PHILOSOPHY

Our philosophy can be summed up with the saying, "If you take the High Road in life, you'll always wind up in a better place." We seek to partner with companies and management teams that share our philosophy.
