

**One purpose.
Shared prosperity.**

A diversified and truly aligned global fund manager

IFM Investors is one of the few truly aligned fund managers in the world. Along with our owners – 27 world-leading pension funds – and other like-minded investors, we believe in the power of bold, long-term and sustainable investment commitments and strategies that aim to deliver results, which ultimately enhance people's retirement outcomes.

We invest on behalf of like-minded institutions globally, including superannuation and pension funds, sovereign wealth funds, insurers, endowments, foundations and universities. 한국투자투자 (korea/) 日本投資信託 (japan/)

Creating lasting good for our investors

IFM Investors has one singular purpose – the prosperity of our investors. We ensure that their money works in their best interests, no one else’s. We aim to achieve great outcomes for our investors through prudent, long-term investments that make a difference to the retirement outcomes of working people. This means that we invest with vision and do not suffer from short-sightedness.

IFM Investors is transparent and trusted, with a track record across buoyant and challenging markets. We champion a business culture that unites our international teams with in-depth knowledge and experience across sectors and allows them to nurture opportunities to grow and create value.

Investment capabilities

We manage funds across four asset classes – infrastructure, debt investments, listed equities and private equity. Our global team of experts offers wide specialisation, knowledge and experience. We pursue investment strategies on behalf of like-minded investors, focusing on delivering strong, consistent performance over the long term.
