Seeing Future Value Today

Prophet Equity is a private equity firm that makes control investments in strategically viable, asset-intensive, underperforming companies. Over the last twenty years, our Principals have invested in and managed entities with over \$6 billion in revenue. Our control equity investments focus on lower middle market companies with strategically strong businesses and significant value creation potential, such as those found in partnerships, corporate carve-outs, divestitures and non-strategic businesses of larger companies.

Representative business situations have included special situations, succession planning, recapitalizations, reorganizations, turnarounds, acquisitions, and bankruptcies. Partnering with owners and management teams, our team of experts utilize a Holistic Value Creation™ (“HVC™”) strategy that is Fortune 500 tested and private equity proven to diagnose and drive dramatic value creation. Portfolio company management teams are highly motivated with clear, uncapped incentives based on realized business performance. For more information on Prophet Equity or to discuss seeing future value in your situation today, please contact us at 817.898.1500 or email us at valuecreation@prophetequity.com (<mailto:valuecreation@prophetequity.com>).
