## OUR SERVICES

**Financial Planning**

It all starts with a plan. After we get to know your situation we merely suggest what we would do in your position. We use the team approach with your other professional advisors (legal, accountant, tax preparation)

## **Wealth Management**

We manage your money according to your level of risk tolerance and station in life after thoroughly explaining the pertinent facts. Implementation occurs when you are comfortable and understand the investment theory.

## **Risk Management**

As part of your plan we always hope for the best, but plan for the unseen.
