

PEAKEQUITY PARTNERS

Your Journey to the Top

SEASONED INVESTMENT PARTNERS

We are a private equity firm focused on investments in Enterprise Software companies. The principals of PeakEquity Partners have extensive experience as investors and operating executives in multiple market sectors and an objective of building sustainable growth companies.

We have a team of experienced operating executives with deep domain knowledge in our target markets. Our investment team and operating executive ecosystem have been brought together with the sole focus of building growth companies and helping entrepreneurs achieve their goals.

Areas of expertise:

- Enterprise Software
- Mitigating Risks

We provide access to experienced operating resources and strategic partnerships so you may get an edge in capturing market leadership and achieving expansion goals.

Our focus is on mid-sized Enterprise Software companies with a concentration in Enterprise Infrastructure Software, Enterprise Application Software, Business Analytics, Business Intelligence, Big Data, Internet of Things, Machine to Machine, Supply Chain Management, and Information Security.

We want to help you reach the next stage of growth and value. Aligning you with capital, relevant advisors, operating talent and new contacts can help accelerate your growth strategy while building operating processes to enable potentially repeatable, sustainable growth and profitability.
