What is it that we do so well

We execute merger, divestiture and acquisition transactions, raise capital through private placements, and provide strategic advisory services for Sustainable Technology and Infrastructure companies and projects.

Our mission is to empower companies and investors who are creating a more efficient and sustainable global infrastructure. We are purpose-built to ensure that our clients achieve success. We help clients incorporate innovation and productivity into our energy, transportation, food, water and waste infrastructure systems.

We are socially responsible

At Greentech, we make a big difference by doing small things

Locating our New York and San Francisco offices in LEED certified buildings

Hosting our website from a 100% solar-powered service

Using hybrid taxis, rental cars and car service

Videoconferencing instead of air travel

Using recycled paper, double sided printing, and paperless presentations

Purchasing carbon offsets to ensure we are a carbon neutral company
