## ABOUT COBALT

Cobalt for Limited Partners is a cloud-based enterprise solution for private markets investors. Cobalt's services are provided on an annual subscription basis. With a Cobalt subscription, clients gain unlimited access to Cobalt's analytics tools for assessing portfolio performance and diligencing general partner track records, as well as Cobalt's robust database of limited-partner-sourced fund returns and investor profiles.

## ABOUT US

Hamilton Lane and Bison, each leaders in their respective spaces, have come together to create a dynamic analytics solution for limited partners. Hamilton Lane brings data and experience, with more than 26 years as a global private markets investor and adviser. Bison brings cutting-edge software solutions dedicated to innovating the way we work in private equity. To find out more about each company, click on the links below.
